

SUBJECT INDEX

- Acute Myocardial Infarction. Long-term prognosis after — 148
- Acute Myocardial Infarction. Long-term prognosis after — with special reference to cause and place of death 243
- Acute Myocardial Infarction. Long-term prognostic index in — 248
- Amniotic Fluid. Lecithin-sphingomyelin ratio in — of determination of the optimal time of termination of pregnancy 212
- Aortic. Neonatal — thromboembolism. Surgical treatment and coagulation studies 261
- Arachidonic Acid. — as a precursor in production of substances necessary for platelet aggregation and its control 130
- Arteriography. Selective coronary — a.m. Judkins. Technique and prevention of complications 63
- Bacteriologist. Carl Julius Salomonsen, the first Danish — and founder of the State Serum Institute 220
- Biopsy. Iatrogenic dissemination of tumour cells. Dissemination of tumour cells along the needle track after percutaneous, transthoracic lung — 82
- Blood Pressure. Serum lipids, —, skinfolds, height and weight in 580 Danish school children aged 8 to 17 years 166
- Calcium. Relation of magnesium to — in human blood serum: Fact or artefact 203
- Carcinoma. Relation of dysplasia and — of the uterine cervix to age at onset of sexual life and number of coital partners 172
- Cardiac emergencies. Blood minerals in — 116
- Cerebral Palsy. Congenital — 137
- Cervical Carcinoma. Initial screening for — in Præstø 1972-1975 230
- Cervical Carcinoma. Rescreening for — in Mariibo amt 1971-1975 232
- Clavicle. Osteomyelitis of the — following percutaneous subclavian vein catheterization 260
- Coital. Relation of dysplasia and carcinoma of the uterine cervix to age at onset of sexual life and number of — partners 172
- Congenital Cerebral Palsy 137
- Coronary. Selective — arteriography a.m. Judkins. Technique and prevention of complications 63
- Cystopathy. Diabetic —. A Review of the Urodynamic and Clinical Features of Neurogenic Bladder Dysfunction in Diabetes Mellitus .. 49
- Diabetes Mellitus. Diabetic Cystopathy. A Review of the Urodynamic and Clinical Features of Neurogenic Bladder Dysfunction in — 49
- Dissemination. Iatrogenic — of tumour cells. Dissemination of tumour cells along the needle track after percutaneous, transthoracic lung biopsy 82
- Diuretic. — therapy and hypokalemia in geriatric out-patients 126
- Drug. Benefits and adverse — experiences during long-term methotrexate treatment of psoriatics 208
- Drugs. On the consumption of reimbursed — in Denmark. A pharmacological-epidemiological analysis based on 1,395 prescriptions in the county of Aarhus from April 1, 1974 to March 31, 1975 67
- Dysplasia. Relation of — and carcinoma of the uterine cervix to age at onset of sexual life and number of coital partners 172
- ECG-Monitoring. Prognostic factors in acute myocardial infarction occurring within the first days of — 155
- Electronic Data Processing. Detection of cumulations of infections in hospital over a three-year period using — 253
- Embolism. Scintigraphic investigation of the legs and lungs in suspected cases of deep vein thrombosis and pulmonary — 159
- Filtration Rate. Routine methods and their reliability for assessment of glomerular — in adults 181
- Geriatric. Diuretic therapy and hypokalemia in — out-patients 126
- Glomerular. Routine methods and their reliability for assessment of — filtration rate in adults 181
- Glucocorticoid (betamethasone). Prevention of the respiratory distress syndrome (RDS) by antepartum — therapy combined with phenobarbitone and ritodrine 225
- Height. Serum lipids, blood pressure, skinfolds, — and weight in 580 Danish school children aged 8 to 17 years 166
- Hypertension. Masked — in myocardial infarction 206
- Hypokalemia. Diuretic therapy and — in geriatric out-patients 126

Iatrogenic. — dissemination of tumour cells. Dissemination of tumour cells along the needle track after percutaneous, transthoracic lung biopsy	82	Myocardial. Long-term prognostic index in acute — infarction	248
Idiopathic Respiratory Distress Syndrome. Roentgenologic pulmonary findings and lecithin-sphingomyelin ratio in — of various degrees of severity	119	Myocardial. Prognostic factors in acute — infarction occurring within the first days of ECG-monitoring	155
Infarction. Long-term prognosis after acute myocardial —	148	Myocardial Infarction. Can procainamide improve the prognosis of patients with ventricular arrhythmias after — ?	121
Infarction. Long-term prognosis after acute myocardial — with special reference to cause and place of death	243	Myocardial Infarction. Long-term prognosis after acute — with special reference to cause and place of death	243
Infarction. Long-term prognostic index in acute myocardial —	248	Myocardial Infarction. Masked hypertension in —	206
Infarction. Prognostic factors in acute myocardial — occurring within the first days of ECG-monitoring	155	Neonatal. — aortic thromboembolism. Surgical treatment and coagulation studies	261
Infarction. Prognostic factors in acute myocardial of — over a three-year period using electronic data processing	253	Neurogenic Bladder. Diabetic Cystopathy. A Review of the Urodynamic and Clinical Features of — Dysfunction in Diabetes Mellitus	49
Lecithin. — sphingomyelin ratio in amniotic fluid of determination of the optimal time of termination of pregnancy	212	Newborn. Parenteral nutrition via peripheral veins in — infants	264
Lecithin. — sphingomyelin ratio in eight cases of premature rupture of the membranes	218	Nutrition. Parenteral — via peripheral veins in newborn infants	264
Lecithin-Sphingomyelin. Roentgenologic pulmonary findings and — ratio in idiopathic respiratory distress syndrome of various degrees of severity	119	Osteomyelitis. — of the clavicle following percutaneous subclavian vein catheterization	260
Lipids. Serum —, blood pressure, skinfolds, height and weight in 580 Danish school children aged 8 to 17 years	166	Parenteral. — nutrition via peripheral veins in newborn infants	264
Lithium. Renal handling of — at nontoxic and toxic serum lithium levels	106	Phenobarbitone. Prevention of the respiratory distress syndrome (RDS) by antepartum glucocorticoid (betamethasone) therapy combined with — and ritodrine	225
Liver. The diagnosis of — metastases by ultrasonic and radioisotope scanning	60	Platelet Aggregation. Arachidonic acid as a precursor in production of substances necessary for — and its control	130
Liver Volume. — Determination by Ultrasonic scanning	1	Postoperative. — lung function and sensory blockade	78
Long-Term Prognosis. — after acute myocardial infarction with special reference to cause and place of death	243	Procainamide. Can — improve the prognosis of patients with ventricular arrhythmias after myocardial infarction	121
Low Anterior Resection of the Rectum. A new technique for —. Preliminary results with a circular stapling instrument for anastomosis	235	Prognosis. Evaluation of —	238
Lung Biopsy. Percutaneous transthoracic — using multiplane technique	87	Prognostic Index. Long-term — in acute myocardial infarction	248
Lung Function. Postoperative — and sensory blockade	78	Psoriasis. Benefits and adverse drug experiences during long-term methotrexate treatment of 248 —	208
Lymphocyte Culture. Quantitative aspects of in vitro —	93	Pulmonary Findings. Roentgenologic — and lecithin-sphingomyelin ratio in idiopathic respiratory distress syndrome of various degrees of severity	119
Magnesium. Relation of — to calcium in human blood serum: Fact or artefact	203	Radioisotope. The diagnosis of liver metastases by ultrasonic and — scanning	60
Metastases. The diagnosis of liver — by ultrasonic and radioisotope scanning	60	Rectum. A new technique for low anterior resection of the —. Preliminary results with a circular stapling instrument for anastomosis	235
Methotrexate. Benefits and adverse drug experiences during long-term — treatment of 248 psoriasis	208	Reimbursed. On the consumption of — drugs in Denmark. A pharmacological-epidemiological analysis based on 1,395 prescriptions in the county of Aarhus from April 1, 1974 to March 31, 1975	67
Minilaparotomy. Sterilization of women through a —	177	Rescreening. — for cervical carcinoma in Maribo amt 1971-1975	232
Multiplane. Percutaneous transthoracic lung biopsy using — technique	87	Respiratory Distress Syndrome. Prevention of the — (RSD) by antepartum glucocorticoid (betamethasone) therapy combined with phenobarbitone and ritodrine	225
Myocardial. Long-term prognosis after acute — infarction	148		

Ritodrine. Prevention of the respiratory distress syndrome (RDS) by antepartum glucocorticoid (betamethasone) therapy combined with phenobarbitone and —	225	Termination of Pregnancy. Lecithin-sphingomyelin ratio in amniotic fluid of determination of the optimal time of —	212
Scanning. Liver Volume Determination by Ultrasonic —	1	The State Serum Institute. Carl Julius Salomonsen, the first Danish bacteriologist and founder of —	220
Scanning. The diagnosis of liver metastases by ultrasonic and radioisotope —	60	Therapy. Prevention of the respiratory distress syndrome (RDS) by antepartum glucocorticoid (betamethasone) — combined with phenobarbitone and ritodrine	225
Scintigraphic. — investigation of the legs and lungs in suspected cases of deep vein thrombosis and pulmonary embolism	159	Thromboembolism. Neonatal aortic —. Surgical treatment and coagulation studies	261
Screening. Initial — for cervical carcinoma in Præsto 1972-1975	230	Thrombosis. Scintigraphic investigation of the legs and lungs in suspected cases of deep vein — and pulmonary embolism	159
Sensory Blockade. Postoperative lung function and —	78	Thyroxine-Binding Globulin. Familial low — capacity	257
Serum. Relation of magnesium to calcium in human blood —: Fact or artefact	203	Tumour Cells. Iatrogenic dissemination of —. Dissemination of tumour cells along the needle track after percutaneous, transthoracic lung biopsy	82
Sexual. Relation of dysplasia and carcinoma of the uterine cervix to age at onset of — life and number of coital partners	172	Ultrasonic. Liver Volume Determination by — Scanning	1
Skinfolds. Serum lipids, blood pressure, —, height and weight in 580 Danish school children aged 8 to 17 years	166	Ultrasonic. The diagnosis of liver metastases by — and radioisotope scanning	60
Sphingomyelin. Lecithin- — ratio in amniotic fluid of determination of the optimal time of termination of pregnancy	212	Urodynamic. Diabetic Cystopathy. A Review of the — and clinical Features of Neurogenic Bladder Dysfunction in Diabetes Mellitus ..	49
Sphingomyelin. Lecithin- — ratio in eight cases of premature rupture of the membranes	218	Weight. Serum Lipids, blood pressure, skinfolds, height and — in 580 Danish school children aged 8 to 17 years	166
Sprue. —: A follow-up study of an old series	205	Ventricular Arrhythmias. Can procainamide improve the prognosis of patients with — after myocardial infarction?	121
Stapling Instrument. A new technique for low anterior resection of the rectum. Preliminary results with a circular — for anastomosis ...	235		
Sterilization. — of women through a minilaparotomy	177		
Subclavian Vein Catheterization. Osteomyelitis of the clavicle following percutaneous —	260
